The average cost of IT downtime costs businesses $300,000 per hour

And more than 85% of businesses experience unplanned downtime incidents bimonthly or more regularly. Business disruption and data recovery issues during downtime cause a loss in revenue, productivity, and the organization's reputation. Worried about the impact that unplanned downtime can have on your business? Not on our watch. We commit to tackling your urgent issues and escalations as fast as possible.

Our Extended and Premium Support packages guarantee availability on priority issues round-the-clock (24/7), 365 days a year. Our Premium Support comes with a resolution target, assuring commitment and appropriate resource allocation for working on the problem until it is resolved, or a suitable workaround is provided. Furthermore, the Logpoint Technical Account Manager service provides dedicated contacts in the support team for system escalations and ad-hoc consultations. We focus on the technical success of your Logpoint solution through best practices in configuration and system performance. Decrease support time, optimize your Logpoint system, and reduce security risk. Want to learn security management best practices and get the most out of your cybersecurity solution? Our Extended and Premium packages come with training vouchers that can be used for any paid Logpoint training. Whether you are a security analyst, administrator, user, or an MSSP, our training courses give you a deep insight into Logpoint, tailored to your organization and role. We currently offer the following training courses:

- **Certified Logpoint Administrator**
- **Certified Logpoint User**
