LOGPOINT

LOGPOINT SIEM

A FAIR PRICING MODEL FOR THE NATIONAL HEALTH SERVICE

When it comes to SIEM and Security Awareness, NHS Organisations often experience having to prioritise and limit the monitoring of their IT infrastructure due to the data volumes and large amount of users.

Logpoint has therefore created a tailored license for NHS Organisations, which enables coverage of the entire IT infrastructure for a set cost based on the type of NHS organisation they are.

This license is available for Commissioning Support Units (CSU), NHS Hospital Trusts, NHS Ambulance Service Trusts, NHS Mental Health Trusts, NHS NI HSCs, MHS Wales Health Boards, NHS Scotland Health Boards and Community Health NHS Trusts.

This creates a predictable licensing model.

Background to NHS Licensing

Pricing Assurance – A unique Enterprise CORE SIEM Subscription License for all UK NHS Organisations . It is a fair model where the license is calculated based upon the type of NHS Organisation. This includes:

Logpoint Enterprise Unlimited Core SIEM Licensing – DOES NOT INCLUDE UEBA	
Commissioning Support Units (CSU)	£84, 500
NHS Hospital Trusts	£65,000
NHS Ambulance Service Trusts	£58,500
NHS Mental Health Trusts	£58,500
NHS NI HS	£45,000
NHS Wales Health Boards	£45,500
NHS Scotland Health Board	£45,500
Community Health NHS Trusts	£39,000
Commissioning Support Units (CSU)	£84, 500
NHS Hospital Trusts	£65,000

We have then fixed that price for the term of the contract, enabling NHS Organisations to utilise the Logpoint CORE SIEM software without restriction across their entire estate.

- No restrictions on the number of Logpoint instances installed.

- No restriction on the number of log sources.

- No restriction on the volumes of log data.

- Assurance of no price increases on Logpoint CORE SIEM throughout the term of contract.

- Includes one concurrent user licence of Logpoint's SOAR technology.

There is of course still the possibility to invest in licenses, which are calculated based on devices as per the usual Logpoint licensing model.
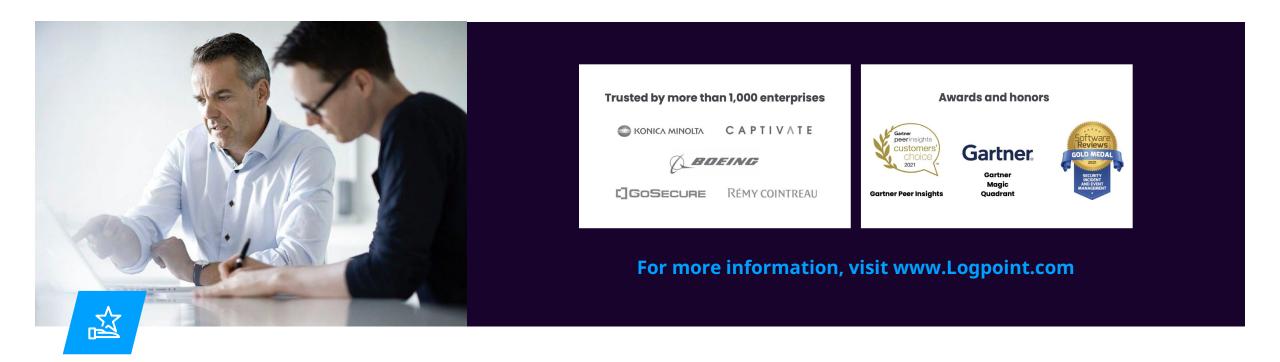

For more information about the model please contact: uk@Logpoint.com

Disclaimer: Pricing is valid until 30th March 2024 | A 1,000 Node license will be provided upon purchase. Additional nodes may be provided upon request under Logpoint consultation | UEBA is excluded | Logpoint integrates log formats from widely used COTS platforms; if unsupported, at time of investment, will be included FOC.
