

LOGPOINT

LOGPOINT SIEM

**A FAIR MODEL FOR
EDUCATION**

When it comes to SIEM and security awareness, the education sector often experience having to prioritise and limit the monitoring of their IT infrastructure due to the data volumes and large amount of users. Logpoint has therefore created a tailored license for education, which enables coverage of the entire IT infrastructure for a set cost based on the number of students studying within the organisation. This license is available for all Universities throughout the United Kingdom. This creates a predictable licensing model.

BACKGROUND FOR THE EDUCATION LICENCING

Pricing Assurance – A unique Enterprise SIEM subscription license for all UK educational organisations. It is a fair model where the license is calculated based upon the number of students studying within the organisation, calculated as set cost of £2.00 per student.

All education organisations with 20,000 students or below are assigned a highly discounted set cost of £40,000

We have then fixed that price for the term of the contract, enabling education organisations to utilise the Logpoint software without restriction across their entire estate.

- No restrictions on the number of Logpoint instances installed.
- No restriction on the number of log sources.
- No restriction on the volumes of log data.
- Assurance of no price increases on Logpoint SIEM throughout the term of contract.
- Includes one concurrent user license of Logpoint's SOAR technology.

There is of course still the possibility to invest in licenses, which are calculated based on devices as per the usual Logpoint licensing model.

For more information about the model please contact: uk@Logpoint.com

Disclaimer: Pricing is valid until 31st March 2024 | A 1,000 Node license will be provided upon purchase. Additional nodes may be provided upon request under Logpoint consultation | UEBA is excluded | Logpoint integrates log formats from widely used commercial off-the-shelf platforms; if unsupported, at time of investment, will be included free of charge
